

**Please join us at a public meeting to learn more about two
Town-led coastal resilience projects**

MEETING DETAILS:

MONDAY, JUNE 10, 2019, 6:30 PM

IPSWICH TOWN HALL

25 GREEN STREET, ROOM C (SECOND FLOOR)

Topics of discussion:

1. Overview of impacts from climate change and sea-level rise on critical public infrastructure (e.g., water, sewer, power, roads) and private property.
2. Information on how protecting natural resources helps protect the public, and why we are focusing on Green Infrastructure.
3. Steps Town has taken to address future climate impacts.
4. Riverbank erosion – overview, findings & status of nature-based coastal bank stabilization.
5. Argilla Road flooding – overview, findings & status of road elevation & culvert expansion.

For additional information contact Janet Rice, Ipswich Conservation & Planning Assistant, phone 978-356-6661 or visit www.pie-rivers.org/ipswichriverbankproject.
